Toronto, Ontario.

Dear Sir:

HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO
BIDDER NO. 1000

In accordance with your instructions we have prepared
the attached summary of various data in connection with the estimated,
interim and actual power rates, etc., in regard to the municipalities
comprising

Digitized by the Internet Archive
in 2024 with funding from
University of Toronto

October 15, 1923, as follows:

- (a) The minutes of a meeting held by the Commission
on June 22, 1921, authorized a reduction in the
retail rate from 2.25¢ to 1.80¢. This adjustment
was made retroactive to commencement of operations.
- (b) On December 30, 1922, the Commission decided that the
rate should be reduced from 1.80¢ to 1.05¢ and that
this rate be made retroactive to date of first
operation.

The figures appearing in the "Actual Rate" column of the
summary represent the cost per kilowatt hour after giving
effect to the adjustment referred to in paragraph (a) above, but do
not take into consideration adjustment referred to in paragraph (b),
the latter not having been, as yet, distributed by the Commission,
by year, among the several municipalities.

Dear Sir:

HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO RIDEAU SYSTEM

In accordance with your instructions we have prepared the attached summary of various data in connection with the estimated, interim and actual power rates, etc. in regard to the municipalities comprising the Rideau System.

The charges for renewals included in the cost of power were modified during the period from the beginning of operations to October 31, 1921, as follows:

- (a) The minutes of a meeting held by the Commissioners on June 22, 1921, authorized a reduction in the renewal rate from 2.25% to 1.85%. This adjustment was made retroactive to commencement of operations.
- (b) On December 20, 1922, the Commission decided that the rate should be reduced from 1.85% to 1.0% "and that this rate be made retroactive to date of first operation."

The figures appearing in the "Actual Rate" columns of the summary represent the cost per horse power per annum after giving effect to the adjustment referred to in paragraph (a) above, but do not take into consideration adjustment referred to in paragraph (b), the latter not having been, as yet, distributed by the Commission, by years, among the several municipalities.

March 22, 1933.

Dear Sir:

HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO
HYDRA SYSTEM

In accordance with your instructions we have prepared the attached summary of various data in connection with the estimated interim and actual power rates, etc. in regard to the municipalities comprising the Hydra System.

The operating expenses included in the cost of power were modified during the period from the beginning of operations to October 31, 1931, as follows:

- (a) The minutes of a meeting held by the Commissioners on June 22, 1931, authorized a reduction in the renewal rate from 2.25¢ to 1.85¢. This adjustment was made retroactive to commencement of operations.
- (b) On December 20, 1932, the Commission decided that the rate should be reduced from 1.85¢ to 1.00¢ and that this rate be made retroactive to date of first operation.

The figures appearing in the "Actual Rate" column of the summary represent the cost per horse power per annum after giving effect to the adjustment referred to in paragraph (a) above, but do not take into consideration adjustment referred to in paragraph (b), the latter not having been, as yet, distributed by the Commission, by year, among the various municipalities.

As mentioned in connection with other systems, it should be borne in mind in comparing the estimated and interim rates with the actual rates, that the estimated rates originally quoted and the interim rates subsequently charged presumably made provision for the renewal rate in force at the time the power rates were determined.

Yours very truly,

Price Waterhouse & Co.

in connection with other systems, it should be borne in mind in comparing the estimated and interim rates with the actual rates, that the estimated rates originally quoted and the interim rates subsequently charged presumably made provision for the removal rate in force at the time the power rates were determined.

Yours very truly,

Wm. B. Lawrence, Jr.
